#### Kindergarten funding status

For the purpose of the Census, services that received Queensland Government funding during the calendar year to run a kindergarten program are considered to be “Funded”.

Primary service type refers to the main type of activity provided by your service. Eligible responses are:

#### **Long day care**

Long Day Care is a centre-based early childhood education and care service providing all-day or part-time care for children in the general community (services may cater to specific groups within the general community). For-profit and not-for-profit organisations, local councils, community organisations and employers may run these services. Long day care primarily provides services for children aged 0-5 years. Some long day care may also provide kindergarten programs and care for school aged children before and after school and during school holidays. The service may operate from stand-alone or shared premises, including those on school grounds.

#### **Kindergarten**

Services that provide structured educational programs to children in the year prior to Prep.

#### **Occasional/Limited Hours Care**

Occasional care comprises services usually provided at a centre on an hourly or sessional basis for short periods or at irregular intervals for parents who need time to attend appointments, take care of personal matters, undertake casual and part time employment, study or have temporary respite from full time parenting. These services provide developmental activities for children and are aimed primarily at 0–5 year olds. Centres providing these services usually employ a mix of qualified and other staff.

#### **Outside school hours care**

Outside school hours care comprises services that provide care for school aged children before school, after school, during school holidays and on pupil free days. Outside school hours care may use stand-alone facilities, share school buildings and grounds and/or share facilities such as community halls.

Family day care comprises services providing small group care for children in the home environment of a registered or engaged family day care educator. Care is primarily aimed at 0–5 year olds, but primary school children may also receive care before and after school, and during school holidays. Educators work in partnership with scheme management and co-ordination unit staff.

#### **3.1 Kindergarten programs – funded and unfunded program delivery**

These questions are used to help determine whether a service is required to submit unfunded and/or funded kindergarten program details and related child information.

#### **Explanation of terms**

Kindergarten programs are considered as separate if there are distinct groups of children attending each program, and an educational program is developed for each group of children.

Funded programs are those approved kindergarten programs that receive Queensland Government funding.

Non-funded programs are those kindergarten programs that do not receive Queensland Government funding.

For the purpose of this form, each kindergarten program (or group) is a separate educational program, designed for children who are in the year before prep, delivered for an identifiable group of children and may be offered in multi-aged rooms.

*Queensland Kindergarten Funding Scheme* refers to a state funded initiative to promote the delivery and universal access to quality early childhood education in the year prior to Prep. If you are unsure of the funding status of your kindergarten programs you may need to speak further with the owner of your service or contact the Census Support Team on 1300 613 188.
