

This delightful ABC children's series is an innovative approach to engaging young deaf and hearing children through Auslan and helping bridge the gap between the deaf and hearing worlds. Since Sally & Possum was introduced by the ABC in 2016, VDEI has promoted the series by continuously playing episodes in our lobby.

Congratulations to the Queensland State Government and the creators of Sally & Possum for a wonderful resource that entertains all age groups.

Sally & Possum was developed primarily to support the literacy and numeracy development of young children who are deaf or hard of hearing.

A teacher and educator resource package aligning with the Australian Curriculum and Queensland kindergarten learning guideline has been developed. The package complements series 1–6 of Sally & Possum videos and is available on the Queensland Early Childhood Education and Care website.

The resource package guides teaching and learning opportunities in early childhood and early years of school settings through the use of Sally and Possum episodes.

The resources are not tools to teach Auslan under the Australian Curriculum, rather the resources complement the Australian Curriculum.
