

The Early Childhood **Regulatory Authority**

2023-25 regulatory priorities

Health and hygiene

Keep children healthy and well by:

- serving healthy food safely
- taking action to prevent the spread of infectious diseases
- knowing about and supporting each child's medical needs.

Incident prevention and management

Protect children from harm and hazard by:

- remaining alert to possible risks and promptly responding
- contributing ideas and insight into service risk management processes
- responding appropriately if an incident occurs.

Positive relationships with children

Develop respectful and positive relationships with children by:

- creating a secure and nurturing base for children to experience acceptance, consistency and encouragement
- supporting each child to understand and manage their emotions and behaviours.

Support for educational leadership

Deliver high-quality programs by:

- selecting an educational leader with appropriate knowledge, skills and experience
- empowering the educational leader to network, mentor, lead critically reflective practice, and develop educators' skills
- providing the educational leader with opportunities to grow their pedagogical leadership.
