

How To Make a Swan

You will need: A square sheet of paper

Method:

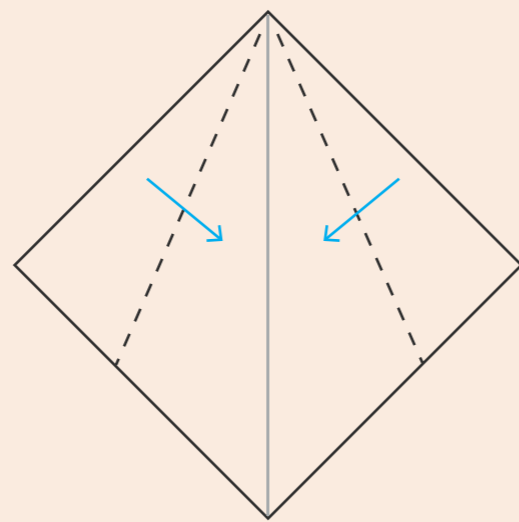

Step 1:

Start with a square sheet of paper. Fold in half on the diagonal. Unfold.

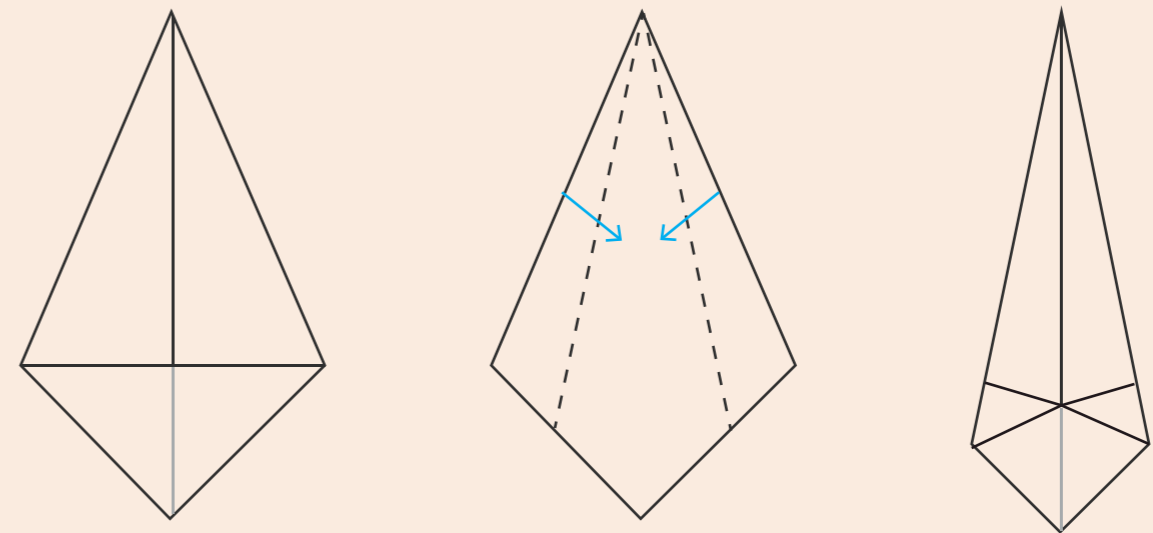

Step 2:

Fold the left and right edges of the paper to meet the central crease made above.

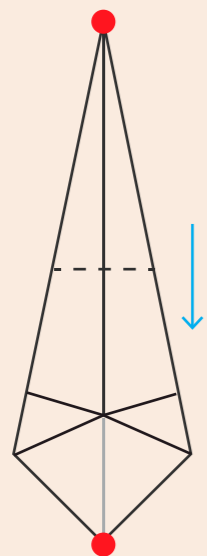

Step 3:

Turn the paper over and repeat: fold the left and right edges to meet the central crease.

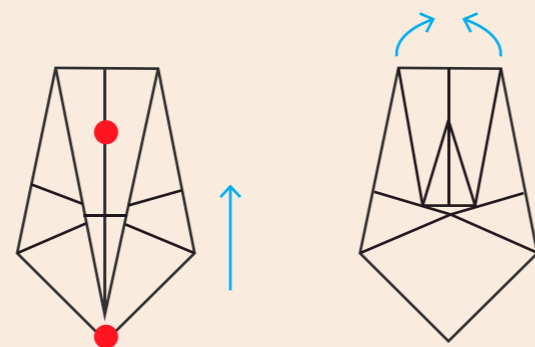

Step 4:

Fold the model in half so the sharp point meets the corner on the opposite side (align the red dots).

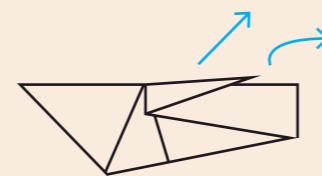

Step 5:

Fold the sharp point back again about a third of the way; exact distance not important.

Step 6:

Fold the model in half vertically (mountain fold to create left and right side of swan). Rotate quarter turn.

Step 7:

Gently pull the neck and head of the origami swan away from the body. Done.
